Dr. Detlev R.H. BREYER, FWCRS

What's valuable to you belongs in good hands.

CURRICULUM VITAE

Dr. Detlev R.H. Breyer, FWCRS is an internationally expert world class surgeon, researcher, developer and teacher of minimally invasive eye surgery using the femtosecond laser to correct myopia, presbyopia, hyperopia, astigmatism, keratoconus and cataracts. He is one of the first ten surgeons worldwide to use ReLEx SMILE and PRESBYOND and was one of the first ten European ophthalmic surgeons to perform the minimally invasive laser-cataract-surgery. His pioneering contributions to the development of innovative processes have earned him international recognition: He is a member of the Academic Faculty of leading German, European, American and Asian ophthalmic surgery congresses and a reviewer of the most important international peer reviewed journals.

His research institution for International Innovative Ophthalmic Surgery (I.I.O.) is linked to the Excellence University of Heidelberg via the network IVCRC.net. Dr. Breyer is the owner and leading surgeon of Breyer, Kaymak & Klabe Eye Surgery and Premiumeyes in Düsseldorf. Founded in 2002, the clinic specializes in innovative, gentle & painless laser treatments and outpatient eye surgery.
